## AUSTRIAN LINES ON ISONZO FRONT GIVE WAY BEFORE HEAVY BLOWS OF ITALIANS WHO CAPTURE OVER 10,000 PRISONERS

### ITALIANS EXPECTING DEVELOPMENTS OF WIDE IMPORTANCE TO FOLLOW

French offensive North of Verdun Nets More Than 5,000 Prisoners in Two Days and German Losses Are Enormous in Counter Attacks of Great Violence.

Canadians Renew Forward Move Around Lens Bitter Hand-to-hand Fighting Takes Place With Canadians Making Gains—Austro-German Forces Advance in Southern Roumania.

(By Associated Press Dispatch)

THE AUSTRIAN LINE ON THE ISONZO FRONT IS BEGINNING TO BEND AND GIVE WAY AT VARIOUS POINTS UNDER THE FURIOUS ATTACKS OF THE ITALIANS, ROME ANNOUNCES OFFICIALLY.

THE ITALIANS ARE MAKING PROGRESS TOWARD A SUCCESS WHICH THE STATEMENT SAYS IS BECOMING DELINEATED IN DESPITE UNDIMINISHED RESISTANCE BY THE AUSTRIANS. MORE THAN 10,000 PRISONERS HAVE BEEN TAKEN IN THE NEW BATTLE OF THE ISONZO AND STRONG AUSTRIAN DEFENSES HAVE FALLEN INTO THE HANDS OF THE ATTACKERS.

Seldom during the war has an official communication been worded in such confident terms and unless the Austrians are able to rally their shattered forces, developments of far reaching importance are expected.

Canadian troops around Lens in northern France made another attack early this morning. Germans who advanced at the same time made a hurried retreat on encountering the Canadians. Few details have been given of the fighting which developed into one of the most desperate hand-to-hand fights of the entire war.

The German reaction to the French attack at Verdun came last night and the new French lines stood firm in the face of counter attacks of extreme violence.

On the front north of Verdun, especially at Avocourt Woods, the fighting was particularly bitter, the French war office reports. The Germans beaten back, met with heavy losses. The number of prisoners taken by the French now exceeds 5,000.

Heavy fighting continues on the south Roumanian front. Austro-German troops have reached the outskirts of the important Moldavian town of Ocna, 20 miles southwest of Jasey, the provisional Roumanian capital.

### GARFIELD IS SLATED FOR COAL CHIEF

No Formal Appointment Made But President Is Said to Consider Head of Williams College.

By Associated Press Dispatch.  
Washington, August 21.—There were indications today that President Wilson was considering the appointment of Henry Garfield of Williams College, as coal administrator. Mr. Garfield already has been named as a member of the food administration commission which will fix the price of the 1917 wheat crop. Whether Mr. Garfield could take on the duties of the coal administrator in addition was not made clear. Inquiries as to the appointment were met with the statement that the

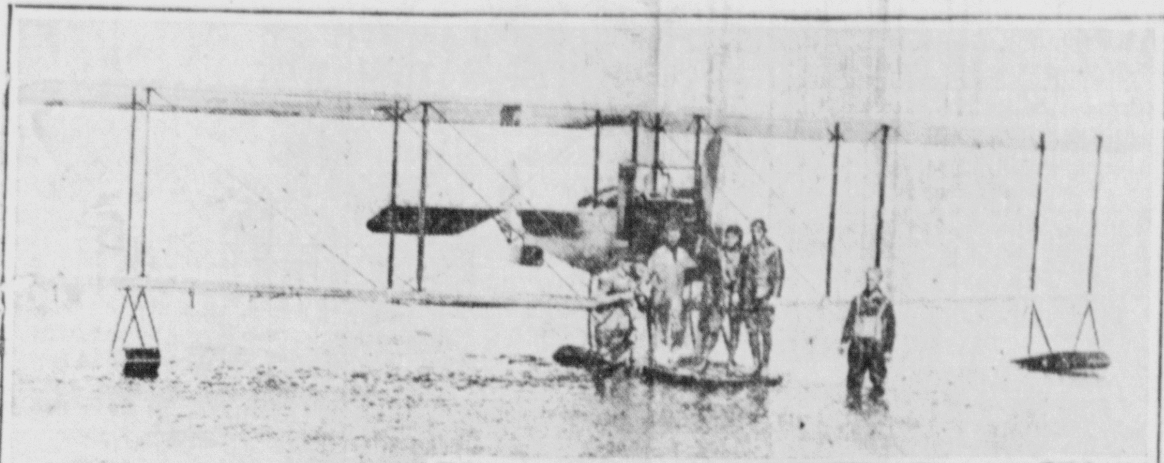

### STOCKHOLDERS FAVOR PROPOSAL

By Associated Press Dispatch.  
New York, August 21.—The stockholders of the Equitable Life Assurance Company voted today in favor of neutralization which had already been approved by the directors. The proposition will be submitted for a vote by mail to the 50,000 policy holders.

### AUTO STRUCK SEVEN DIE

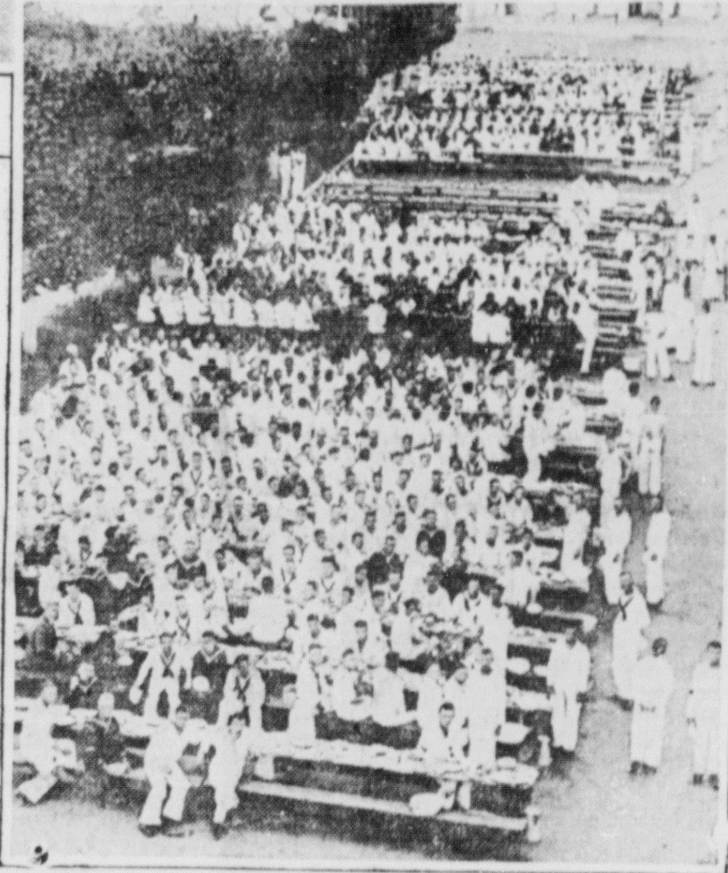

By Associated Press Dispatch.  
Saybrook Junction, Conn., August 21.—A freight engine running light over the Shore Line division of the New York, New Hampshire & Hartford railroad struck and crushed at a crossing an automobile owned and driven by Robert H. Rowloff, of New Haven, who had with him a party of four adults and four children. All the members of the party were killed except Louise W. Weyel, aged nine.

### GOVERNMENT TAKES OVER STATION WHERE SEAPLANE MADE FIRST FLIGHT

SEAPLANE and SAILORS' OUT DOOR MESS, at SAN DIEGO, CAL.

These photographs show a seaplane in use at North Island, San Diego, Cal., and sailors eating their dinner at the great outdoor mess at the naval training station at San Diego. North Island, the great flying field at San Diego, is a center of war activities nowadays. It is situated in southern California, at the southwestern corner of continental United States, and has just been commandeered by the government by act of congress. Since the birth of the science of flight North Island has been one of the most famous aeronautical laboratories in the world. It was there that the first seaplane flew. By reason of topography, uniform climate meteorological conditions, isolation and at the same time proximity to a large city where supplies may be obtained North Island is one of the finest aviation fields on earth. Its 1,200 acres are now to be occupied jointly and permanently by the army and navy. Large numbers of young men from all parts of the country are now being trained there.

### HOOKWORM IS FOUND AMONG MILITIAMEN

Discovery of Complaint May Result in General Test of All Soldiers From Southern States.

By Associated Press Dispatch.  
Washington, August 21.—Discovery of hookworm infection in 47 out of 75 militia recruits recently mobilized for war service has caused public health service authorities to recommend prompt examination of all units of the national guard and army at present organized, especially those from the south.

Prevalence of hookworm was found by Dr. C. H. Wardell Styles, of the public health service at a government reservation where he was experimenting. Complaint by a recruit of not feeling well after officers suspected him of trying to shirk, resulted in the examination. Hookworm infection was found. Other examinations showed a high percentage of hookworm.

### BRITISH REPLY TO PEACE NOTE

(Associated Press Cable.)  
Rome, August 21.—The reply from the British government to the peace note of Pope Benedict was handed to Cardinal Gasparri, the papal secretary of state by the British minister on Monday.

The reply says the Pope's note will be examined in a benevolent and serious spirit.

### SPAIN SENDS TROOPS HOME

(Associated Press Cable.)  
Madrid, Spain, August 21.—The Cabinet has decided to send home all men recently called to the colors, owing to disturbances.

The cabinet approved a credit of 70,000,000 pesetas, for reorganization of the army and manufacture of material, especially anti-aircraft guns and light artillery.

### LAFOLLETTE BITTER IN OPPOSITION

Urges Conscription of Wealth and Paints Black Picture of Future—Denounces Liberty Loan Methods.

By Associated Press Dispatch.  
Washington, August 21.—Conscription of wealth to pay for the war was urged in the Senate today by Senator LaFollette of Wisconsin in presenting the minority plans of the Finance Committee, for higher rates in the war tax bill on war profits and incomes.

He suggested increasing the \$2,500,000,000 bill to more than \$3,500,000,000 by such increases with the elimination of consumption taxes. He also urged that less bonds and more taxes be authorized. He declared that governments were demanding war while their people were asking for peace and contend-

ed that 85 per cent of the men drafted are protesting.

Large bond issues desired by wealthy interests inflate prices and increase the present high cost of living which he declared also already imposed a 50 to 100 per cent burden on the masses.

The liberty loan, he said, was made possible by an "iron hand within a kid glove."

The pending bill, he stated, provides by taxes but 17 per cent of this year's war expense, while Great Britain imposes 26 per cent. Next year's war expenses, he predicted, may reach \$30,000,000,000 or \$40,000,000,000 and he urged that huge war profits and incomes of wealthy persons be made to bear the burden of the war.

"It may be argued," said LaFollette, "that the poor equally with the rich will have the opportunity to purchase war bonds. It is small comfort to have the opportunity to purchase bonds if you have little or no money to invest."

"The late liberty loan is a good example of bonds sold to the poor."

"We all know these bonds were a poor investment to the man of small means in comparison which the owners of large incomes could secure from investing millions of their taxable incomes in these nontaxable bonds."

"By keeping down taxes and increasing bonds," he said, "the masses are being mortgaged to the money lenders."

Possibility of bread lines this winter were pictured by LaFollette.

### TO PROSECUTE PAPER MFG'RS

By Associated Press Dispatch.  
Washington, August 21.—The advances in prices of book paper last year were excessive and unwarranted, the Federal Trade Commission reported today to the Senate.

As a result of the investigation the Commission has ordered proceedings against certain manufacturers.

The advances were brought about in part by the activity of members of the paper manufacturers' association. On account of these activities the proceedings were ordered.

### EXPLOSION IS ACCIDENTAL

By Associated Press Dispatch.  
Cincinnati, O., August 21.—Officials of The King Power Company, at Kings Mills, where four men were killed and two injured in a powder explosion yesterday, declared today that after an investigation they are convinced the explosion was accidental. They asserted they would not require an investigation by Federal Secret Service men and that no request would be made for soldiers to guard the plant.

German Chancellor, it Is Announced, Indicates Willingness to Make Peace.

Will Not Discuss Restoration of Alsace-Lorraine, However, as Desired in Peace Note.

(Associated Press Cable.)

Copenhagen, August 21.—At a meeting of the main committee of the Reichstag today, Chancellor Michaelis is expected to declare the Pope's peace note in general accord with the German government's proposal and the recent Reichstag resolution on the same subject, and therefore sympathetically received in Germany.

Germany cannot discuss details, and under no circumstances can discuss Alsace-Lorraine, as a part of the German Empire.

The Chancellor is expected to say that as Germany has earlier indicated its desire to make peace the first word must come from the other side.

A meeting of the Bundesrat, committee on foreign affairs, had been called for yesterday in Berlin under the chairmanship of the Bavarian Premier, Count von Hertling, to discuss the situation created by the Pope's note and to approve the lines of Chancellor Michaelis' speech today.

### LOANS NEAR TWO BILLIONS

By Associated Press Dispatch.  
WASHINGTON, AUGUST 21.—A LOAN OF \$50,000,000 WAS MADE TODAY BY THE GOVERNMENT TO GREAT BRITAIN. THIS BRINGS THE TOTAL ADVANCES TO THE ALLIES UP TO \$1,966,400,000.

### BRITISH LOSE 14,243 MEN

# SELLS-FLOTO GIVES TIP-TOP PERFORMANCE

Large Afternoon Crowd Enjoys One of Best Performances Ever Given Here and Monster Audience Expected Tonight—Big Street Parade—Circus Arrives Late This Morning.

Although the long trains bearing the mammoth Sells-Floto Circus did not come in over the Pennsylvania from Hamilton, Ohio, until after eight o'clock Tuesday morning, the work of unloading was conducted with such rapidity and the work on the grounds proceeded so much like clock work that the big show was ready almost the minute originally set, and the afternoon performance was given at the usual time, drawing a large crowd that enjoyed every minute of splendid performance presented by the big Sells-Floto aggregation.

More than one person was at the railroad before the sun had peeped above the eastern horizon, ready to watch that never-wearing procedure of unloading a circus.

But when the trains finally pulled in they were greeted by a big crowd—people to whom the procedure was accomplished in almost record breaking time. Even the big herd of elephants seemed to realize the need of a little extra hurry, and came out of their cars on "high."

The activity at the grounds attracted another large crowd—in fact wonder was expressed that there were so many idle men who could take time to watch the work hour after hour; but then—it was circus day, and many things can be overlooked on circus day.

The great pageant which is a feature of the big circus, was held a little later than originally planned, owing to the lateness of arrival, but it did not fail to draw the usual enormous crowd up town.

To use the description given by that wizard of word pictures—the circus press agent the parade consisted of:

"Bands atop red and gold bandwagons, bands mounted on arch necked horses, calliope footed tuners, tall-tailing crimson coated drivers steering twenty-four horse teams by means of veritable mazes of lines, white horses, grey horses, black horses, dappled horses, their rainbow pom-poms bobbing; clown bandmen slipping from bones madly to and fro, their polka dotted legs clinging to the slyly malicious burros; lions, leopards, tigers and others of their ilk a-pacing in glittering cages—all these sounds and sights were with us in downtown streets as the Sells-Floto circus parade passed in multicolored review shortly before noon today.

"Hardly had the elephants and the camels and the other walking beasts, which brought up the rear of the pageant, headed for the circus lot at the Old Fair Grounds on the return lap of the parade, than the crowds along the streets began moving in that direction. By every known convenience they went from limousine to laundry wagon."

The performance this year is made

up of the cream of former years, and the best of the new and startling acts developed since last year, with a bay wagon load of really clownish clowns.

## "PAT" MAY SOON GO TO FRANCE WITH Y. M. C. A.

Popular Secretary of Local Y. M. C. A. Seeks Place With Men Sent to Fight Germans and Goes to New York at Once to Complete Arrangements.

Mr. Walter Patton general secretary of the Y. M. C. A. in this city will go to New York city Wednesday morning to confer with Y. M. C. A. men on the Y. M. C. A. war work in France.

Two secretaries will be sent to France from this state and Mr. Patton has been recommended for one of the positions.

If Mr. Patton is accepted, which is more than likely, he will remain in New York several days to receive instructions. Mr. Patton expects to return to this city soon, and their prepare for service in France within a very short time.

SECRETARY WALTER PATTON

Mr. Patton came to this city several years ago from Springfield where he was educational secretary of the Y. M. C. A.

Since coming to this city Mr. Patton has made many friends who will deeply regret to see him go. During his administration at the Y. M. C. A. he has put the institution on a sound financial basis and generally improved its condition while under the handicap of lack of funds much of the time.

Arrangements will be made in the near future for carrying on the local Y. M. C. A. work during Mr. Patton's absence.

For sometime he has been planning to enter the active Y. M. C. A. work, and because of his genial disposition and ability to make friends, as well as to withstand the rigors of camp life, he is peculiarly fitted for the place he seeks.

## DEATH FOLLOWS SERIOUS OPERATION

Mrs. Elsie Robinson wife of John Robinson, residing in the northern part of the county, died at the Fayette Hospital Tuesday morning, at the age of 19 years. After ten days of suffering from a severe attack of appendicitis, Mrs. Robinson was brought to the hospital for an operation last Friday night. Her serious condition admitted little hope from the first.

Her youth and the fact that she leaves a husband, little two-year-old daughter make the case doubly sad, and arouses deep sympathy. The body was removed to the Klever undertaking establishment Tuesday morning and will be taken this evening in the Klever ambulance to the home of Mrs. Robinson's parents, Mr. and Mrs. Jos. Campbell, who reside on the Quinn farm above Bloomingberg. Funeral services will be held Thursday at 2 P. M. in the M. E. Church of Bloomingberg and burial will be made in the Bloomingberg cemetery.

## AUTO HITS BUGGY ON WATERLOO PIKE

A bad wreck occurred on the Waterloo pike along the Highland premises, about eight o'clock Monday night when an automobile containing Delbert Crouse and Virgil Duff struck a buggy containing Clarence Wood, completely demolishing the vehicle and causing the automobile to go into the ditch and through the fence around the Highland premises.

The rig owned by Mr. Wood bore a lighted lamp and it is claimed that he was on the proper side of the road, and that the boys had poor lights showing and were on the same side of the road as the buggy.

Mr. Wood was injured somewhat. The boys escaped with slight bruises. The horse driven by Mr. Wood, once torn free of the vehicle, ran home with the harness clinging to it.

## PLAN ENLARGEMENT OF C. H. & D. YARDS

It is understood in "sand-house" circles that the B. & O. is contemplating the addition of trackage in the C. H. & D. yards east of Sycamore street, and that the main track of the C. H. & D. may be moved some 30 feet in order to make room for the additional yardage.

It is supposed the change proposed is in connection with the plans of the B. & O. to transfer main line freight through this city.

## The State War Board Says Today:

Spent bullets don't kill the enemy—tho it costs money to make and shoot them.

The war gardener, or farmer, who permits vegetables and other food stuffs to go to waste, is a maker of "spent bullets" in the war with Germany.

Every bit of food produced in America must be conserved, says Herbert Hoover, the nation's food controller.

Tons of produce can be saved this year by the old-time method of "burying" for storage. Potatoes, beets, cabbages, carrots will keep fresh all winter by storage in old-fashioned farm "pits."

Here's how to go about it:

Pick a well-drained site. Dig a hole one foot to 18 inches deep, saving the earth to cover. Pile vegetables as upright as possible.

Cover first with clean straw, then with earth to depth of three or four inches, leaving small opening at top for ventilation. Cover this opening with loose boards to keep out rain. With freezing weather, cover with clover chaff or litter from stable to depth of four or five inches, and again with earth of same depth. This will keep out frost of ordinary winter, but should not be left on too late in Spring or contents will get too warm.

But 'Twas Vastly Different With Mrs. Keener Before Nerv-Worth Came.

Only those persons who have gone through the happy experience recorded in the following statement can fully realize the deep pleasures of the table. One must have suffered severely from indigestion and then found a way to eat without distress if he wants to know what the enjoyment of meals really means. Mrs. Parthena Keener, of Montana Mines, near Fairmont, W. Va., found such enjoyment by the use of Nerv-Worth, as the following letter, which she wrote some time ago to her Fairmont druggist, fully proves:

"I have taken three bottles of Nerv-Worth and it has helped me wonderfully. I was so nervous that I could not stand the noise of children playing. I now can eat onions, cabbage, cake and pie. I can now sleep nine hours.

**WHO STRUCK THE MATCH?**  
 Who struck the match to start the blaze that set the world on fire?  
 Who opened wide the gates of hell and let the imps conspire  
 To craze the souls of sordid men with greed for power and lust  
 Which make them thieves in kulture's name to rob the good and just?

Who opened wide the floodgates of human hate and passion  
 And forced forth millions, duped with lies, instead of truthful ration  
 To wreck and ruin cities fair, and fill the world with fears,  
 That tyrant leaders e'en may gloat o'er woman's prayers and tears?

And now when all the world has waked, to free the earth once more—  
 When tyrants see their pending doom with Justice shadowing o'er,  
 Shall we be asked to stay our hand while trembling tyrants plead  
 For chance to hold their footing still, Their bloody dupes to lead?

Legions of Death of woman fair go forth with deadly gun  
 To fight for home and country against the lustful Hun.  
 Each a phial of poison takes, concealed in her fair breast,  
 Prepared to swallow it and die, if captured in contest.

Was e'er so grave indictment found against a greedy nation,  
 Taught to believe that might, not right, should hold the higher station?  
 God grant that such philosophy, vile and low and mean,  
 And all who teach it, be wiped out, e'er Peace shall reign serene.

(By Associated Press Dispatch.)

Columbus, O., August 21.—Attorneys for Dr. Leroy Bundy, negro dentist wanted in St. Clair county, Illinois, for complicity in the recent East St. Louis riots, today filed with Governor Cox a statement that they will resist extradition of their client on three grounds:

That Dr. Bundy was not in East St. Louis, but at Belleville, 14 miles away at the time the crime was committed which has been charged to him.

That he is not now a fugitive from justice, and that to take him back to Illinois would rekindle ill feeling between whites and negroes.

**TO SELL BUILDINGS AT PUBLIC OUTCRY**

The Taylor and Midland College school buildings in Union township will be sold at public auction next Friday morning.  
 Buildings and ground will be sold together.

**A German Naval Dash**

The rumor, and it seems to be a little more than rumor too, when considered in connection with verified minor and related activities, that the German navy is about to make a dash for the open sea to do battle with the fleets of the allies, has caused deep interest.

Practically ever since the outbreak of the war the German navy has been bottled up in the harbor of Keil while the British Grand Fleet has watched and waited outside the harbor and out of range of the big guns of the frowning fortress of Heligoland.

The German General Staff has been called upon time and again by the suffering German people to do battle on the sea. To quiet that clamor in Germany the cowardly and piratical submarine campaign was inaugurated and promises of victory made.

That promise has not been made good and again all Germany is asking that the fleet be sent out to aid the army in a last desperate effort to win victory or to secure "honorable" peace.

It seems inconceivable that the cautious German naval commanders will venture, forth to do battle on the sea—nothing would suit the plans of the Allies better.

And yet there are many minor facts such as the inspection of the fleet by the Kaiser, the activity of the mine sweepers which support the rumor that a dash is contemplated.

Germany is desperate—no doubt about that—and if desperate enough to launch a dash from Keil into the jaws of the combined navies waiting in the North Sea, great progress will have been made toward peace.

**Handling the I. W. W.**

The announcement is made by the Department of Justice that the federal authorities have gathered all the information regarding the activities of the I. W. W. leaders in the west and northwest and that the government is prepared to launch, at once, prosecutions which will put an end to their work.

Until the I. W. W. leaders interfered with workers in lines directly connected with preparation for war it is doubtful if the charge of treason could be sustained—that was the legal obstacle.

It is difficult now, however, to draw any definite line as just what industries are a part of the work of war and what are not so closely are all the many activities of this busy people interwoven.

While we get justly impatient that the villainous work of the I. W. W. agitators is not abruptly ended by the stern hand of the law yet, following so rapidly upon the first announcement of intention, came the arrest by the military authorities at Spokane of several I. W. W. leaders, that our impatience is forgotten and the law's delay forgiven in the promise that justice has overtaken the people's worst enemies.

There should be no leniency shown the I. W. W. leaders. An example should be made of their cases. There is no danger that the administration of punishment severe as the gravity of their offense warrants, will create sympathy for them. The people are aroused and in no mood to tolerate either the activities of traitors or to accept cheerfully punishment tempered with sentiment.

**Jay Walking**

There was a time when jay walking was harmless. In fact only recently has it become so hazardous as to imperatively demand legislation forbidding it in the congested urban centers.

The more populous cities have had in effect for some time ordinances forbidding jay walking and by strict enforcement have about broken up the custom.

The volume and speed of vehicle travel has brought a change in traffic conditions which makes new rules and new laws necessary.

Saturday our anti-jay walking orders became effective and traffic "cops" were busy enforcing them. A great many people were inclined to see only the ludicrous features.

As a matter of fact jay walking is a serious menace to life. Some of our citizens witnesses a tragedy, which cost a human life, in Columbus Sunday night when a pedestrian stepped off the curb on High street directly in front of an automobile. The pedestrian lost his life and the driver of the automobile. The pedestrian lost his life and the driver of the automobile had every reason to presume he would obey.

We must obey these new rules made necessary by new conditions. They are not fads. They are real laws intended to be obeyed. They are necessary and to disobey them means to risk our own life and the lives of others.

We should, all of us, help to break up the jay walking custom. It's a relic of the past and now, since vehicle drivers have a right to presume all will obey the law, any one who violates it is taking desperate chances.

### IN SOCIAL CIRCLES

Mr. and Mrs. Henry Mark, assisted by their daughters, Mrs. Eliza Waddell and Miss Ruth Mark are entertaining at the Mark country home, tonight with a six o'clock dinner that is affording opportunity for a remarkable family reunion.

This morning Mr. Mark's oldest brother, Mr. Anthony Mark, accompanied by his daughter, Mrs. Vandine, her daughter, Mrs. Douglas, with her husband and daughter, motored from Paris, Ill., and are honor guests at the dinner. The additional guests are Mr. Mark's sister, Mrs. Mary Stafford, his brother, Mr. Lewis H. Mark, and wife and Mr. and Mrs. Charles Roberts and daughter Miss Blanche.

The quartet of brothers and sister offers a most unusual family record in longevity. Mr. Anthony Mark has entered the last decade before the century milestone and defies his 91 years in his activity. Mrs. Stafford also remarkably well preserved at 87 years; Mr. Henry Mark, always the genial gentleman extending hospitality at the age of 82, with the same cordiality that had marked it half a century ago, and Mr. Lewis H. Mark having celebrated his 79th birthday.

Not in many years have the four been together and the gathering is one of distinctive pleasure that comes rarely.

The second of a series of Young People's parties under the auspices of the Epworth League of the Grace M. E. Church was given Monday night in the Epworth League parlors.

The party was in the form of a "stunt program." The guests were divided into two divisions, and each division presented a stunt quite original and entertaining.

The committee was in charge of Miss Doris McFadden, chairman and Misses Edith Worthington, Opal Moore, Margaret Johnson and Jean.

### WIFE'S AFFECTIONS ARE WORTH \$5000

Five thousand dollars is the valuation that George C. Ackley puts on his wife's affections. Recently his wife, Ethel Ackley, ran away with another man and Ackley asks \$5000 damages against the home-breaker. Ackley is a farmer living near Roxabel. The third person is another farmer living in the vicinity of Black Run. His name is Joseph Vandemark.

Years ago it is said that Ackley and Vandemark were rivals for the hand of Ethel. Ackley won her and Vandemark later married her younger sister. Vandemark's wife died very suddenly a few months ago, and since that time Ackley says that Vandemark has been giving attention to his wife. Vandemark has one child and the Ackley couple have two children. Ackley is about 34, Ethel, his wife about 27, and Vandemark about 40.

The affair between Vandemark and Ackley's wife continued without Ackley's knowledge. It culminated July 13 when Ethel and Vandemark ran away to parts unknown, leaving Ackley's children here and taking the small boy of Vandemark along. After some time, Ackley was able to locate the couple in an adjacent state. Monday, through attorneys Wade Beyerly and P. J. Blosser, Ackley filed a suit for \$5,000 damages against Vandemark.—Chillicothe News.

### 2400 POUNDS OF BREAD PER HOUR

Chillicothe, O., August 21.—The bakers' unit at Camp Sherman is almost completed and Captain Koch will have his large plant in shape in full time for the coming of the first quota of men to be sent into this large training camp in plenty of time.

The bakery is a very large affair, capable of an output of 2400 pounds of bread every hour. The bakers' crops, which will manufacture the bread, it is understood, will comprise one hundred men, but fifty men could keep the plant going by strict attention to business and steady work. The increased detail is probably sent to take up incidental duties in connection with the bakery. These bakers are all trained men, men who know the business of baking and who work under the government regulations.

The army cooks who will do the cooking for the draft army will be selected from among the men themselves, and it is these men who will be given a course of special training by professional chefs selected for the government as teachers by the large hotels all over the country.

### BUYS RESIDENCE FOR A SANITARIUM

With the purchase of the Fitzgerald property on Oakland avenue, Dr. C. C. Hazard announces that he will convert the big residence property into a sanitarium, which will be open to the public.

The residence will be remodeled somewhat, and with the attractive wooded grounds surrounding it, is an ideal location for such an institution. Mr. Fitzgerald and family expect to move to Columbus in September.

The registration revealed the presence in New York of an alarming number of youngish but "totally dependent" parents.—New York World

### INDISPUTABLE PROOF FOR THE CLASSIFIED "AD" IS HERE GIVEN

Saturday evening a resident of the city lost a purse containing four silver dollars, one half and one quarter and some loose change, in the waiting room of the Union Station, just before the departure of one of the evening trains.

An advertisement was placed in the classified columns of The Herald on Monday and on Monday evening the purse and contents was returned to the owner.

Fortunately the purse was found by Mr. Scott Sturgeon, who kept it safely in his custody until The Herald was delivered to him Monday evening. Scanning the last column disclosed who had lost the purse which he had found. Satisfied as to the ownership Mr. Sturgeon promptly restored the purse to Miss Anna Taylor of South Fayette street.

The incident is perhaps the most severe test to which the efficiency of the classified advertisement could be subjected. The results were remarkably satisfactory.

### HOW YOU MAY AID AMERICAN SOLDIERS IN THE TRENCHES

As you sit at ease reading an article or story that interests or amuses you, remember the soldiers and sailors fighting your battle, risking their lives and forgetting home comforts for the cause of the nation. When you finish with the magazine or paper paste a one-cent stamp on the cover and hand it to the postman.

That is all. But in France, where exhausted soldiers come back from the firing line for the rest they must have if they are to continue to fight the moment of effort will result in enjoyment far keener than any magazine could bring to a comfortable home. It will furnish mental recreation to those whose brains are reeling from the horrors of the trenches.

The postal service will do everything but lick the stamp to see that magazines which you have finished reach the American soldiers in Europe. You should be willing to make the slight effort still remaining to add a bit of enjoyment to the lives of men whose existence until the close of the war will at best be barren enough of wholesome recreation.

Read the instructions: Order No. 510.

The classification of articles mailable under Section 8 of the Act of August 24, 1912, authorizing the establishment of the parcel post service, is extended so as to include unwrapped and unaddressed copies of magazines intended for soldiers and sailors of the United States Expeditionary Forces in Europe when mailed by others than the publishers, the postage thereon to be prepaid at the rate of one cent a copy regardless of weight. Magazines to be accepted for mailing under this order must have printed in the upper right hand corner of the front cover the following:

NOTICE TO READER  
When you finish reading this magazine place a one-cent stamp on this notice, hand same to any postal employee and it will be placed in the hands of our soldiers or sailors at the front.

### DAIRY CONTEST IS BEING WATCHED

Columbus, O., August 21.—Dairy men in Ohio are interested in a contest that will be introduced for the first time in the United States at the State Fair the last week of the month—a contest for cow-testing associations of the Buckeye commonwealth. It will be the outcome of several weeks' hard work on the part of E. V. Walborn, fair manager, himself an expert in the live-stock game.

More than 80 cows will be used for the contest, the significance of which any dairyman will grasp, say officials. Requirements to enter the contest are that each association must enter 10 cows from seven different herds and not more than two from one herd. The affair is expected to stimulate rivalry among the various associations and to promote better breeding.
